Luc Damas
Web Development Lecturer, IUT Annecy
→ *supervisor, CUBE Bikes & Twitter Clone projects*

PORTFOLIO

Scan for full
portfolio

Final-year Computer Science student (BUT, Application Development track) at IUT Annecy, France, seeking a 16-week internship starting 19 January 2027. Over the past two years I have built full-stack applications across a range of stacks (C#/.NET, PHP/Laravel, Vue.js) and put these skills into practice during an internship at video game studio Lappi Soft. Rigorous and self-driven, I am looking to bring these skills to an ambitious team.

PROFESSIONAL EXPERIENCE

Software Developer — Internship, Lappi Soft

April – June 2026

Independent video game studio · Pers-Jussy, France

- Independently designed and developed the “Discovery Diary” system in C# (12 scripts, ~2,400 lines) for the game “The Inspector” (Unity)
- Built an editor tool for asset import, wrote bilingual FR/EN developer documentation, achieved a 40x performance gain on the test scene

Sales Assistant — Intersport

Summer 2024

Sports equipment retailer · Reignier-Ésery, France

- Customer advice on sports equipment, stock management

Bakery Assistant — Carrefour Market

Summer 2023

Grocery retail chain · Reignier-Ésery, France

- Product preparation, quality control

TECHNICAL SKILLS

Backend — C# / ASP.NET Core (advanced), Java (intermediate), PHP / Laravel (intermediate), Python (basic)

Frontend / Mobile — Vue 3 (advanced), HTML / CSS / JS (advanced), Flutter (basic)

Data — PostgreSQL (advanced), Entity Framework Core (intermediate), MongoDB (basic)

Tools — Git / GitHub (advanced), Docker (intermediate), Azure DevOps (basic) · OS: Windows Server, Linux · AI: Claude Code, GPT-5

UNIVERSITY PROJECTS — YEAR 2

CUBE Bikes — E-commerce platform — REST API in ASP.NET Core / EF Core, Vue 3 + Pinia frontend, JWT auth, Stripe, PostgreSQL. Team of 4, IUT Annecy.

Twitter/X Clone — Group project (4) — Laravel/PHP, PostgreSQL, Redis, WebSockets, containerised with Docker. IUT Annecy.

+ Wine cellar management app (WPF/MVVM), Space Battle game (C#) and full technical write-ups (architecture, code samples, screenshots) at mateobourdin.github.io

EDUCATION

BUT Informatique — Application Development track

IUT Annecy, Annecy-le-Vieux, France

French national higher education diploma (3 years post-secondary, 180 ECTS credits):
technology-focused programme combining coursework and applied projects

2024 – 2027

Engineering Preparatory Year

ENIB, Brest, France

2023 – 2024

French Baccalauréat (general track), with Distinction — Maths & Computer Science

Lycée Sainte-Thérèse, Quimper, France

National examination concluding French secondary education (general track)

2023

MISCELLANEOUS

Competitive skiing & snowboarding (advanced level) — Combloux resort, national-level ranking, 13 years' practice

Equestrian sports — Pont-l'Abbé Riding Club: 3rd place, French Show Jumping Championship (2019); Reden Polo Club (Gouesnac'h): French Polo Champion
