MATÉO BOURDIN

Computer Science Student — Bachelor's degree (BUT), 3rd year

Currently in the third and final year of a Bachelor's degree in Computer Science (BUT Informatique, Application Development track) at IUT d'Annecy, I am looking for a 16-week internship starting on 19 January 2027. Over the past two years, I have built full-stack applications on a range of stacks (C#/.NET, PHP/Laravel, Vue.js) and put my skills to the test in a real-world setting during an internship at video game publisher Lappi Soft. Rigorous and autonomous, I am eager to bring these skills to an ambitious team.

PROFESSIONAL EXPERIENCE

Software Developer — 2nd-year Internship, Lappi Soft

Apr – Jun 2026

Independent video game studio · fewer than 5 employees · Pers-Jussy, France

- Independently designed and developed the “Discovery Diary” system in C# (12 scripts, ~2,400 lines) for the game “The Inspector” (Unity)
- Built an editor tool for asset import, wrote bilingual EN/FR developer documentation, achieved a 40x performance gain on the test scene

Sales Assistant — Intersport

Summer 2024

Sporting goods retailer · ~20 employees · Fouesnant, France

- Advised customers on sports equipment, managed stock

Bakery Assistant — Carrefour Market

Summer 2023

Supermarket · 30–40 employees · Bénodet, France

- Product preparation, quality control

TECHNICAL SKILLS

Back end — C# / ASP.NET Core (advanced), Java (intermediate), PHP / Laravel (intermediate), Python (basic)

Front end / Mobile — Vue 3 (advanced), HTML / CSS / JS (advanced), Flutter (basic)

Data — PostgreSQL (advanced), Entity Framework Core (intermediate), MongoDB (basic)

Tools — Git / GitHub (advanced), Docker (intermediate), Azure DevOps (basic) · OS: Windows Server, Linux · AI: Claude Code, GPT-5

UNIVERSITY PROJECTS — 2ND YEAR

CUBE Bikes — E-commerce platform — ASP.NET Core / EF Core REST API, Vue 3 + Pinia front end, JWT authentication, Stripe, PostgreSQL. Team of 4, IUT Annecy.

Twitter/X Clone — Group project (4) — Laravel/PHP, PostgreSQL, Redis, WebSockets, containerised with Docker. IUT Annecy.

+ Wine cellar manager (WPF/MVVM), Space Battle game (C#) and technical details for every project (architecture, code excerpts, screenshots) at mateobourdin.github.io

EDUCATION

Bachelor's degree in Computer Science (BUT Informatique)

Application Development track · IUT Annecy, Annecy-le-Vieux, France

French national Bachelor's degree (3 years, 180 ECTS) combining theory and applied projects — 3rd and final year in progress

2024 – 2027

Integrated preparatory year for engineering schools

ENIB, Brest, France

2023 – 2024

French Baccalauréat with Distinction — Maths & Computer Science

Lycée Sainte-Thérèse, Quimper, France

National exam completing French secondary education (general track)

2023

INTERESTS

Competitive skiing & snowboarding (advanced) — Combloux ski resort, national level, 13 years of practice

Horse riding — Club Hippique de Pont-l'Abbé: 3rd place, French Show Jumping Championship (2019); Polo Club Reden (Gouesnac'h): French Polo Champion
